SINGER'S SEWING MACHINES!

THESE machines have long sustained the highest reputation in the United States—THE FIRST PRIZE—A GOLD MEDAL—has recently been awarded to them at the great Exhibition at the Palace of Industry in Paris, and has the World's verdict of superiority.

Great improvements have just been added, so that they run without noise, with ease to the operator, at double the ordinary speed, and

Twice as much Work can be done in a day. The greatest clothing and shoe manufacturing establishments in the country use these machines exclusively. They are competent to perform every sort of work in the most perfect style.

As these are very great numbers of inferior or entirely worthless sewing machines of Lerow & Blodgett, Avery, Wilson, Grover & Baker, and other patents, which have been sold, it cannot be used to any advantage, we hereby offer to receive all such machines, and also unfinished ones of our own manufacture, *exchange new and latest improved machines*, on liberal terms. All old machines thus obtained by us will be broken up and Destroyed. For particulars apply by letter or personally at our New York Office.

N. B. Local Agents wanted to manage sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.

THE GREAT American Discovery —IS— Dr. Barber's Diapent.

THIS valuable Medicine is composed principally of Herbs, by whose stimulating, penetrating properties, it is when applied, gradually diffused through the whole system, the most intense pain in a few minutes, only to let it, when you will be convinced that no preparation ever offered to the public, or kept by the afflicted, possesses in so high a degree its perfect Anodyne qualities. Its action in all cases is prompt, powerful, and effectual, without the least endangering the system.

It penetrates the flesh to the bone, relaxes the contracted muscular powers, restoring the use to the joints and limbs, which have been rendered by years of affliction almost entirely useless. It is, therefore, hailed by the suffering as the greatest blessing of the age, and no one would hereafter be without this sovereign balm after he had once witnessed its magic influence over disease, and its potency in relieving pain, however unbearable. The perfect consciousness of its infallible efficacy, by actual experiment, has taken me bold in asserting its transcendent virtues. By referring to the numerous certificates in the hands of agents, which were given voluntarily and cheerfully, from a sense of gratitude and justice, by persons of the first respectability, (and statements admit of no doubt,) you will find it has no equal, in the whole world, for a speedy, and lasting cure of Rheumatism. It will also cure Neuralgia, Pains in the Side and Back, Cramp, Swellings, numbness, Weakness of the Spine, &c. Also, Dyspepsia, and all Nervous proceeding from the Stomach. Also, Dr. Barber's *Pain Reducent*, a sure remedy for Corns, Bunions, &c. &c. Sold by Dyott & Sons, A. B. & D. Sand, Parr, Perry, Boston, at all dealers in Patent Medicines.

DE GUNON'S IMPROVED Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Counting Rooms, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only safe* preventive against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accidents from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the cheapest to gas in proportion.)

The above lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and from the public testimonials I have in my possession, I feel safe in saying that these Lamps will be sold wholesale or retail *as low as* the ordinary Camphene and Fluid Lamp, by L. S. HICKER, 15 Main Street, Bangor, Me., dealer in Lamps, Chimneys, Glass, and Crockery Ware.

WEDNESDAY, DEC. 19, 1855.

☞ For Railroad, Steamboat, Stage, Express and Public House Advertisements, see Fourth Page.
☞ For Bounty Land notices see First Page.
☞ For "City of Bangor" advertisements see first page.

The Bangor Journal very naturally and properly comes to the rescue of Hon. Thomas J. Fuller, against the charge of perfidy in representing himself to be an anti-Nebraska man, making anti-Nebraska speeches, &c., before the Congressional election in his district, and then, after getting into Congress again, voting square up for the "father of the Nebraska bill, in the House, in every election where the issue was directly made on that very question. That the Journal should consider itself bound to defend the Gentleman of Mr. Fuller, by the terms of the new fusion alliance, shows that the terms of offence and defence, formed with the National Democrats, is definitely closed and sealed.

The Journal's argument in favor of Mr. Fuller is as follows:

"That Mr. Fuller was at the time of his election and still is, anti-Nebraska, we have no reasonable doubt. He was sincerely opposed to the repeal at the Compromise of 1820, believing that it was not only impolitic and unmanly, but a breach of good faith, and left no, under all the circumstances, of great enormity. But the deed is done, and while those who voted with him against its repeal, refuse to aid in its restoration, we see nothing very inconsistent in his voting with the party to which he has always belonged, and whose votes elected him."

This argument is altogether too flimsy to cover up the sins of the distinguished dough-face whom the Journal undertakes to defend. If Mr. Fuller had ever been sincerely opposed to the repeal of the Compromise, he would now sustain that party in Congress which goes for the substantial restoration of the rights of freedom which were subverted by that repeal. If the repeal had really been an act of "great enormity" in his eyes, he would now, if mere party considerations — for the time being at least — and so far reversing that act.

The assertion which the Journal repeats for the hundredth time, that the Republican party refuses to aid in the restoration of the Compromise is too silly a falsehood to call for any serious reply. Slavery still retains the benefit it received from that Compromise in the admission of Missouri as a slave State, — and the restoration of the restriction upon the balance of the old Missouri territory would be accomplished by the refusal to admit slave States from that territory. This can be done by the House, but the Journal well knows that a restoration *in terms* cannot be accomplished so long as the Senate, whose concurrence would be necessary, is composed so strongly of pro-slavery men. — We are among the number of those who deny that the Missouri Compromise restored any *right* of slavery extension, beyond the admission of Missouri as a Slave state — so that we should have no hesitation in going for an entire restoration, were the thing possible.

Now both Mr. Fuller and the Journal itself, stand in the position of refusing to do *anything* to right the great wrong. They only *talk* about the "enormity" of the repeal of the Compromise, — but both refuse to take the position of resisting the admission of slave States from that territory, which is *all* that can now be done, because in the House only is there an anti-Nebraska majority. They take a position of *acquiescence* in a wrong which is consummated, — and that is precisely the position which satisfies and pleases the South. It is this very acquiescence which is the essence of dough-faceism.

The Journal has a good deal to say about the "perfidy" of the Republicans of the Eastern District, in not supporting an anti-Nebraska Whig for Congress, but we do not see either that has a right to do with Mr. Fuller's case. If they had been guilty of any perfidy in the matter, we hardly see how that would excuse *him* for falsifying the record which he once made of opposition to the Nebraska iniquity.

ARNOLD'S COMBINED FOOTSTOVE, LANTERN AND NURSE LAMP.—This is the latest Yankee notion — and a very useful notion it is, like many which are produced in Jonathan's noddle. As its name indicates, the article serves the different purposes of foot-stove, lantern and nurse lamp, as it may be required, and will heat a flat-iron or boil a tea-kettle, it is said. It is, withal, light and portable, — being but little heavier than an ordinary hand lantern. The light and heat is furnished by a small-sized fluid lamp, with three burners, one or all of which can be used as required.

The patent right for manufacturing and vending this article in Penobscot county has been purchased by ALBERT NOYES, Nos. 15, 17 and 19 Central Street, of whom they may be procured.

Municipal Court.

Dec. 15. — James Landers, charged with a felonious assault upon Ann Murphy, with intent &c., was bound over for trial at the February term of the Supreme Court, in the sum of $500.

James Butler, (an Irishman) for disturbing the school on Grove Street, was fined $2 and costs, on complaint of the Superintendent.

Dec. 18. — Harriet Moores, charged with adultery with one Isaac Capers, was bound over in the sum of $500, to appear at the February term of the Supreme Court, for trial. The defendant in this case has a libel for divorce pending against her husband, Daniel Moores.

A man named Oswald, and a woman calling herself Lina Elden, have been arrested, in Albany, for robberies of valuables & silks. The lady was remarkable for beauty and eloquence. On being searched by a female, in a side room at the Police Court, her profundity was reduced to positive leanness, and $500 worth of silks were found attached, by the aid of hooks, to her skirts, and in singularly contrived pockets.

THE MOTHER'S MAGAZINE.—The December number of this excellent magazine is received by Dunn.

The Democrat says that the Whig utterly failed to sustain its position previously stated, that it was the duty of the President, and that he had the power to interfere for the prevention of the election outrages in Kansas."

Begging the Democrat's pardon for the contradiction, we conceive that we have not utterly failed to do so. We have referred to the undisputed obligation of the President to execute the laws of Congress, or to see that they are properly executed. We have then cited the fact that the territorial law — the organic act by which the Territory has an existence as a Territory — is one of the laws of Congress, and not a law of the Territory. It is therefore his duty to see it fully executed. That law declares in plain words, that the people of the territory shall be left perfectly free, to form and regulate their domestic institutions." The President well knew that in one election previous to the legislative election) the people had not been left perfectly free, in choosing a delegate; and that a second armed interposition of Missourians was threatened, at the time, and in the very manner in which it actually took place. He knew also that there was no power in Kansas to prevent this violation of the territorial act. We regard it therefore to have been his plain duty to take some preventive measures against the threatened outrage. Nor will it do to say that the government must not move to prevent a violation of the laws of Congress, until it has *official* information of such violation — for in other cases, when it is satisfied in any way, either officially or unofficially, that a gross violation of law is contemplated, it moves with alacrity to prevent the outrage, as, for instance, in the violation of our neutrality laws.

PLAIN TALK AND FRIENDLY ADVICE TO DOMESTICS, with Counsel to House Mistresses. Boston; Phillips, Sampson & Co.

This volume is designed as an aid in those rules of housekeeping which are incident to the relations of housekeepers and domestics. If any relief can be thus afforded for the class of the ills that flesh is heir to, the usefulness of the book is manifest. It is written by a woman, and is entitled to the gratitude of many a harassed mistress, and many an ill-used maid. Boys, men-servants and masters also come in for their share of advice and suggestion. The whole is interspersed with interesting sketches of domestic life, calculated to illustrate the ideas of the Author. We have not been able to read the book, but from a casual examination, have no doubt that it is of a useful character — although it strikes us as dwelling too briefly upon the duties of employers towards their servants, which should properly form a part of such a work.

The Sixth Lecture of the Independent Course was delivered last evening to a crowded house, in Norombega Hall, by Mrs. Ernestine L. Rose. Her subject was "The Education and Social Position of Woman," which she handled with great eloquence, truthfulness, and power.

Mrs. Rose lectures again *this evening*, upon the "Violation of Human Rights," on which occasion, it is announced, she will notice some of the statements which have been made in regard to her sentiments and opinions.

SEMINARY ADVOCATE. We have received a small and neatly printed paper with the above title, which is to be published monthly at Augusta. It is designed to advocate the cause of education in general, and of the Maine State Seminary in particular," — It is edited by the Rev. Oren B. Cheney.

VIRGINIA FINANCES. The Richmond Whig says the disbursements of the State of Virginia for 1856 will exceed the receipts by the sum of $1,454,251,60, to meet which deficit the Auditor states that an increase of 100 per cent. on the taxes will be necessary.

Janes, telegraph clerk at Berlin, accused of unlawfully revealing telegraphic intelligence for stock jobbing purposes, was convicted on the 12th of November, and condemned to three years imprisonment, with the loss of social rights as a citizen for five years.

THE RECIPROCITY TREATY. The Government of Newfoundland having signified its acceptance of the terms of the Reciprocity Treaty, the President has issued his proclamation for the admission of the articles named in the treaty, from Newfoundland, duty free.

Nearly one and a half millions of dead letters were opened at the office in Washington during the last quarter. Three thousand letters for that period contained money to an amount exceeding $18,000.

The first shad of the season was caught by Charles E. Smith, in Savannah river, on the 7th, in a pike net, and was sold for $45, and served up in South Carolina.

Two ladies of fashion, in St. Louis, have recently died suddenly. Cause — arsenic taken in small doses to give brilliancy to their complexion.

Washington Correspondence of the Whig.

State of things here.— Buchanan should be President.— Present Prospect for some of the Faithful.— Effect of the Kansas Troubles.— The Speakership.

WASHINGTON, Dec. 13, 1855.

If Mr. Buchanan should be nominated and elected to the Presidency, the supreme direction of affairs, so far as Maine is concerned, would fall to Hon. Nathan Clifford. Messrs. Buchanan and Clifford served together in the Cabinet of President Polk, and are ardently attached to each other. The connection between them is still further cemented by the relation of John Appleton to both. Mr. Appleton, who is the law partner of Mr. Clifford, is an especial pet of Mr. Buchanan's; was clerk in the State Department here, when it was presided over by Mr. Buchanan; was sent to South America, as *Charge d' Affaires* by Mr. Buchanan; and was last winter, at Mr. Buchanan's special instance, appointed Secretary of Legation at London.

Thus bound together by various ties, they will go into power together, and the day which witnesses the installation of Mr. Buchanan at the White House, will mark Mr. Clifford's accession to supreme control, as dispenser of pap and plunder for the State of Maine, and probably for all New England. This is a delightful prospect for Mr. Clifford; not so delightful, probably, to everybody else.

There is a squad of politicians in your city, who perfectly abominate Nathan Clifford; prefer to W. B. S. Moor, Bradley, Boynton, Leonard Jones, and their *confreres*. They despise Pierce, but they absolutely hate Clifford, and how keen must be their rage and mortification, if it shall turn out that after suffering four years of neglect and contumely under Pierce, they are doomed to another four years infliction of Buchanan and Clifford. The prospect is, indeed, dreary. If they oust Pierce, it will only be to elevate Clifford. Navigating between Scylla and Charybdis, they can see nothing but certain destruction on either hand. I assure them that they have both my sympathy and my prayers.

The events which are happening in Kansas, will bring on a perfect storm in the North Western States against the slavery cabal. The free State men of Kansas, are only in a small proportion from New England. They are largely from Ohio, Indiana, and Illinois; they are largely democrats; many of them have been what are called "Nebraska" men — that is, attached to the doctrine of "popular sovereignty," now proved to be a snare and a delusion. The President, the Convention and the military leaders at Lawrence, is Col. Lane, a member of the last Congress from Indiana, and a supporter of the Nebraska Bill. The free State men from Ohio, Illinois and Indiana, have relations and friends at home, who are watching their struggle with unabating eyes and ears. The acts of the Missouri ruffians backed up by Pierce's officials in Kansas, and as they will be by Pierce himself, excite their indignation to the highest pitch. Blood is shed, the excitement will spread wide, sweeping politicians and parties before it. The President and his Cabinet will be denounced as participators in the infamy of the transaction. They curse the day when they were coaxed into that act of "atrocious infidelity," the repeal of the Missouri Compromise. Vainly, the way of the transgressor is hard.

The contest for the Speakership still drags its slow length along. It is useless for me to trouble you with speculations, of which the telegraph will have given you the result, before my letter reaches you. The present position of the Anti-Nebraska members, is peculiarly unfortunate. They are divided upon the question, whether it is better to adhere to Banks, and if defeated to "die game." He can probably command more strength than any other man, but the chances are in favor of his ultimate success. The triumph, if obtained at all, will be none the less appreciated, because long delayed and hard fought.

Yours X.

DISCOVERY OF A SHOAL. — A. D. Bache, Esq., Superintendent of the Coast Survey, in a letter to the Secretary of the Treasury, communicates the discovery by Lieut. Com'g C. R. P. Rodgers, U. S. N., Assistant in the Coast Survey, of a shoal south of the Cross Rips in Nantucket Sound. The following is an extract from his report relative to its position and dimensions:

"The true bearing of the shoal from Nantucket Light Boat is very nearly south, and its distance a mile and two-fifths. The least depth of water upon it is eleven feet; its length in a general north and south direction is nearly three-quarters of a mile, and its breadth varies from fifty yards to a quarter of a mile, the greatest breadth being at the southern extremity."

To the Editor of the Whig and Courier.

My neighbor and friend Gen. Cushman states that there is no truth in the paragraph you copied from the Mercury stating that he had been removed from the office of Commissioner under the Fishery Treaty.

Yours, J. S. S.

MORE TROUBLE AT THE GROCERS' BANK. — State street was again startled to-day by a rumor that there was more difficulty at the Grocers' Bank — An institution which appears to have been particularly unfortunate. The truth of the report is that Mr. Thayer who was a book keeper under Kinsman, and was promoted to the Cashiership on his retirement, appears to be a defaulter to the amount of $10,000 and, as he is not to be found in the city, it is supposed he has absconded. His father, Mr. Gideon Thayer, and another gentleman are his bondsmen, and the Bank will not suffer. Mr. Thayer has heretofore sustained an unblemished reputation, and the whole affair is a mystery. — *Sat. Eve. Gazette.*

THE $50,000 ROBBERY. It will be recollected that in September last two boxes, containing fifty thousand dollars, were placed in charge of the American Express Company, to be forwarded from the United States Land Office at Dubuque, Iowa, to New York, and that during the transit the money was taken out, and lead deposited instead of the boxes. This discovery was made in due time in New York. The company have been endeavoring to ascertain the manner of the robbery. The express messenger, who had charge of the boxes, Samuel C. Whitney, left the company soon after, and came to reside in this state. On Saturday last he was arrested in this city, and on Friday Oliver King, formerly landlord of the Farmers' and Mechanics' Hotel at Lowell, and W. C. Ayer, late a broker on Brattle square, were apprehended in Lawrence, as they were on suspicion of having taken the money. The individuals have risen suddenly from poverty to be house owners, stable keepers, &c., at Lawrence, and it is known that one of them recently deposited five thousand dollars in the Haverhill Bank. — Mr. King's person and house were searched, and it was ascertained that his money transactions, within a few months, had amounted to $11,800, that he had silver plate of the value of $300, and $1172 60 in bills and gold were found in his possession. His house was newly furnished. Ayer's house was searched, and it was ascertained that he had recently purchased one fifty of silver ware. He had two or three gold watches and both he and King had gold chains of the same pattern. White, Ayer and King were taken before the Police Court on a joint charge of stealing fifty thousand dollars from the American Express Company. Mr. William G. Fargo, a member of the robbed firm, swore to the complaint. The examination was fixed for Wednesday next. Hon. Otis P. Lord of Salem and Samuel Parsons, Esq. of Lawrence, have been retained as counsel for the accused. John B. Hazelton, a broker of this city, was arrested at Haverhill on Saturday, on suspicion of having aided White & Co. in the management of the money. He is in jail. *Boston Courier.*

The Criminal term of the Supreme Judicial Court having closed as far as trials are concerned, we consider it proper here to state that Judge Davis has won golden opinions on all hands, since the term commenced, and has given acknowledged evidence of distinguished ability as a nisi prius judge. An able advocate of the Cumberland Bar, opposed to the appointment of the Judge, recently remarked that Judge Davis had applied himself to business with extraordinary industry, or that his qualifications for the office had been more grossly underrated; and this seemed to be the general opinion of the bar of this county. — *Portland Advertiser.*

READING OUT SENATOR HAMLIN. — The Washington correspondent of the Boston Post says —

"Mr. Hannibal Hamlin has deserted the democratic party in its principles, and he should not be regarded in a place (chairman of the Commerce Committee) where by its privileges he might defeat the vital policy of that party upon questions coming under the immediate purview of the Commerce Committee. Such, I discover, is the general opinion here."

U. S. FRIGATE ROANOKE BADLY INJURED. — *New York, Dec. 15.* The Herald's correspondent at Washington, telegraphs that it is rumored to-day at the new steam frigate Kunched yesterday at Norfolk, has been seriously "hogged" (or in other words broken her back,) having been too severely strained upon the ways. The support thus afforded being taken away, or injudiciously diffused, when placed in her natural element the ship has sprung and opened to such an extent that she has become filled with water.

A NEW DAM AT WATERVILLE. — The old dam that was washed away during the late freshet, will be rebuilt in a few weeks, in order to shut the water off, as is the intention of a few of the enterprising men of Waterville, to build a large dam to extend across the river. The old dam was only built to Rock Island, two thirds of the way across. When completed, Waterville can boast of as good mill privileges as any place in New England.

Kidnapping seamen has, of late, become quite frequent in all the Atlantic ports, in consequence of the scarcity of men for the merchant service. The prevalence of the custom in Charleston has caused the introduction of a bill into the South Carolina Legislature to prevent it.

A water spout burst in the harbor of Tunis and sank five ships on the 18th ult. The United States frigate Constellation (?) had sailed two days previous from her anchorage, in the very track of the cataclysm.

Particular Notice.

SOMETHING NEW at BURNHAM'S DAGUERREOTYPE ROOMS, 19 Main Street and 3½ Strickland's Block.

Likenesses made upon *Glass*, showing all the delicacy and expression which the glass surface presents. These Pictures are truly beautiful. — Come and sit before us.

— ALSO —

Crystalotype Likenesses, (or Pictures on Paper.) These Pictures, which have been gaining in public favor for some years past in Boston and elsewhere, are now presented for the consideration of those who wish for a large number of Pictures at small price. They resemble Engravings, are not reversed, and may be painted in Oil or Water Colors. Small Daguerreotypes may be enlarged by this process to almost any size. This we consider a very valuable consideration, as many persons who have small Pictures of deceased friends would be glad to have them enlarged, so as to be hung in frames upon the wall.

The subscribers have recently secured the services of *T. R. Burnham*, who has been operating in the vicinity, and has collected a large number of specimens of persons in the following towns, viz: — Hiltown, Otisfield, Hampden, Frankfort, Frankfort Marsh, Buckspor, Prospect, Searsport and Belfast, which may be seen at the Main-st. rooms.

With the above named arrangement we feel better prepared than ever before to wait upon our friends, and we respectfully solicit a continuance of the patronage which has been so liberally bestowed for the past ten years.

Opinions of Regular Physicians.

Exeter, Me., Sept. 20.

This certifies that I have recommended the use of WISTAR'S BALSAM OF WILD CHERRY for diseases of the lungs for two years past, and many bottles, to my knowledge, have been used by my patients, all with beneficial results. In two cases, where it was thought consumption could not be taken place, the Wild Cherry effected a cure. L. BOYDEN,
Physician at Exeter Corner.

Dr. William A. Shaw, of Washington, N. C., writes — "As Wistar's Balsam of Wild Cherry is the only patent medicine to which I have ever given my public recommendation, I shall not be suspected by the candid of giving 'quack' puffs prescriptive currency."

If genuine, signed I. BUTTS.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

LATER FROM EUROPE.

ARRIVAL OF THE

Steamship Asia,

AT HALIFAX

HALIFAX, N. S., Dec. 18.

The Royal Mail Steamship Asia arrived at this port this morning at 8.30. She sailed from Liverpool Saturday 8th.

The Hermann sailed from Southampton Wednesday 5th with one hundred passengers and a full cargo.

The ship Constitution of New York, arrived at Liverpool on the 4th, and on the morning of the 5th while at anchor in the river, was observed to be on fire. Assistance was immediately rendered, but the fire could all day, and at night was scuttled in twenty feet of water, and burned to the water's edge. Part of the cargo, in a damaged state, otherwise ship and cargo total loss. Cause of the fire unknown and supposed to be spontaneous. Passengers and baggage had landed, but the ship was not cooked.

The news by this arrival consists mainly of peace rumors but the public have no means of estimating their truth.

It is a very remarkable circumstance that the assertions of the British press on the subject of negotiations are quite at variance with those of influential Continental papers.

The London Times and Daily News organs the London Nevs are prominent in asserting that peace is near, and that Austria is about to address an ultimatum summoning Russia under threat of breaking off negotiations to accept those conditions of peace which the Western Powers consider at present but which they will not assent to alter another gratuitous campaign.

Berlin correspondence of the London Morning Chronicle, of the 4th inst. says it is impossible to separate what is true from what is false in the Paris rumors. It is no doubt true that all cabinets are anxious for peace; but it is equally true that it cannot be said negotiations are going forward.

At the utmost, preparatory steps only are being made.

Austria maintains the validity of the treaty of December 2d, and thence all attempts of other German States to exercise a pressure on Western Powers, with a view to pacification, have been completely paralyzed.

Austria, moreover, is now ready to accept the interpretation given to the third of the four Vienna Conference points.

Russia has urgently demanded at St. Petersburg that Russia should name conditions to which she is ready to submit. Russian reply to this demand of Prussia is affirmed to be conciliatory but vague.

The Cabinet at St. Petersburg shrinks from the difficulty of making proposals that they may have the mortification of seeing rejected.

The Cabinets of Munich and Dresden promoted to most influential positions by the policy of France have also succeeded in influence Russia. The measures they took to this end were highly appreciated at Paris, but it remains to be seen if it will be successful.

Our last advices are evenly divided. Some think peace near—others distant. The most reliable accounts indicate that State of affairs stands thus.

There has been no communication whatever from Russia. A communication has been made by the Austrian Government through the French Minister at Vienna embodying terms which Austria is prepared to propose to Russia. This has been submitted by France to England and is now under consideration by the two Governments. The terms are a great advance upon anything yet offered, and might be accepted all round.

But these are the terms of Austria who not of Russia.

Austria does not guarantee to join the Allies if ultimatum be rejected but only to break off relations with Russia and let the question rest.

With respect to Canrobert's mission, London Times Paris Correspondent of the 4th says,—

Canrobert has returned. He left Stockholm 19 h and the day after his departure an act convention or protocol was signed between the Swedish minister of Foreign affairs and the English and French ministers plenipotentiaries, and that the articles of that convention are most satisfactory to the Allies and advantageous to Sweden. The Abo treaty will say some thing of it in a few days. It is waiting for adhesion of Denmark.

The London Post says definitely on the contrary that no convention has at present been signed into by Sweden.

Some undertaken to say that plans will be arranged between Napoleon and the King of Sardinia with respect to Italy that will render peace impossible for years to come. Others that Napoleon is tired of the expenses of the war, and really desires peace. Many think continued preparations on the largest scale are forward for the spring campaign.

Private letters from Petersburg indicate no pressure for peace. Public opinion of overland trade keep general business to a more favorable point than was anticipated. Government paper is not much de cri ated, and money abundant at Moscow at seven per cent.

The Petersburg Northern Bee has an editorial headed—"The war is only beginning" and declares that Russia has ample resources to continue war for years. The London Times has a reply to the Bee, asserting that this boasting merely betrays weakness.

Crimea.

The Times correspondent writes from the Camp before Sebastopol Nov. 25 h, saying that there is really nothing to write about, as nothing has occurred. There is very little fire exchanged between the North and South sides. The Russian works on the north side are rapidly attaining gigantic dimensions. Engineering operations to destroy Sebastopol docks are about completed. Stringent quarantine regulations are pursued to keep spies and loafers out of the allied camp. Horse races are advertised in the British, and Chesters in the French camps. Weather had been fine. Deserters confirm the talk of the Russian army remains in its former position, namely, eleventh, twelfth and thirteenth divisions on the Tchernaya or north platon, the 16th and 17th on Mackenzie ridge, and the rest on the plateau to Koralez, keeping the Belbec, and the Kacha. The French have been reinforced by Gen. Chasseloup's division, twelve thousand, the English and Sardinians also reinforced, and no expedition of the Russians also. The Russians have erected batteries to prevent a landing on the rear of the north forts. The Allies have connected the French and English camps on a bridge of boats. Admiral Lyons continues to cruise near Kertch, as the Russians threaten an attack, and have fortified Arabat with thirty thousand, and Crimea with fifteen thousand men.

Gortschakoff announces, Nov. 23rd nothing new. A Cossack multiplier of the 28th mentions that the Russian cavalry near Simferopol had retired into the interior.

Three hundred sail of grain ships were stopped bound in Sulina, mouth of Danube.

The Imperial Commercial Bank of Odessa has suspended specie payments, premium on silver being twelve to fifteen per cent.

The timber rafts, recently captured by the Allies, are lost, having been floated away and were broken up in a freshet.

Baltic.

Telegraph from Nyborg of the 6th, states that the United squadron under Admiral Dundas were then passing the Belt homewards.

The British Admiralty published Lieutenant Gedeste's account of the late Hango affair but it contains nothing new.

Gen. Canrobert is said to have pointed that the next Baltic campaign two allied armies will be landed, one in Finland and the other in Courland, and he will have command-in-chief. At Kiel he had a long interview with Admirals Dundas and Penaud, and some attribute the Russian Council of war to an intimation of these facts having reached Petersburg. The council referred to will comprise all Generals and Admirals—Generals Diberg, Stewart, Prince Gortschakoff, Todtleben, and others—the object being to devise the best means for the defence of the coast from the Gulf of Bothnia to the southern extremity of Volhynia, 200,000 men being available for this purpose, exclusive of interior garrisons.

The Russian Admiral Glazenapp's mission to stockholm, which was supposed to be with a view to counteract Canrobert's, is said to have reference only to unimportant matters of finance and trading of Swedish ships to ports of Finland.

The Principalities intrigue continues respecting choice of a Hospodar. England supports John Ghika as candidate, France and Turkey protect Al. Callimachi, while Austria acts with Prince Sarley. Austria is said to desire that in future the Hospodars shall be named for life by the Porte, subject to the veto of the Great Powers.

Asia.

There is a rumor on the authority of the London Daily News correspondent that the Russians have taken Kars. It may have arisen from a similar rumor of the capture of Kertsch. Report says that the Russians made an unsuccessful assault on the 5th of November but afterwards took the place. The rumor wants confirmation.

Correspondence to November 15th mentions that Omer Pasha had divided his force into 3 corps, he himself with the main body occupied Sucham Kale, and had detached twelve battalions of infantry with two regiments of cavalry under Fehad and Osman Pachas to Redoubt Kale, while the corps of Mustapha Pacha with the Tunisian contingent was at Ingour. To the 12th of November Omer had not moved from this point of operations.

Gen. Mouravieff had established a winter camp before Kars, and sent off the Georgian militia to the army of Prince Bebutoff.

Great Britain.

Parliament is prorogued till January 31st, then to meet for business.

The King of Sardinia has been the guest of Queen Victoria during the week. Sunday he worshipped in Gardiner Chapel, Cardinal Wiseman preaching. Monday he attended the reviews, Tuesday he visited London city, which was illuminated, Wednesday he was made a Knight of the Garter and inspected the crown at Aldershalt, Thursday he left London for France.

A public meeting had been held at London to consider the monetary crisis and the influence of the bank charter act, which passed resolutions condemnatory of the existing English currency laws, but the meeting was only a preliminary one.

The Duke of Newcastle returned to England.

Spain.

The Cortes have passed a vote of confidence in O'Donnell by a vote of 130 against 8.

Belgium.

The Second Chamber has voted the war estimates by a large majority.

Germany.

Arrangements for reciprocal circulation of paper money have just been made between Prussia, Saxony and Bavaria.

The renewed Conference on German coinage will be held on Berlin, not Vienna, January 10th.

Denmark.

The political difference between the King and Prince Royal is made up.

Prussia.

Distress exists in Prussia from scarcity of corn and disturbance of the usual course of traffic.

In consequence of an epidemic among cattle their importation into Prussia from the Russian land frontier is prohibited.

Austria.

Sir Hamilton Seymour arrives at Vienna.

A private despatch says the Austrian army will be further reduced by 80,000.

Italy.

It is announced for a second time that French and English mediation has adjusted the difficulty between Sardinia and Tuscany.

Liverpool Breadstuffs.

Messrs. Brown, Shipley & Co. and the Brokers Circular, both report a quiet market, with but little speculative demand, and prices generally to the buyer's favor. Their quotations are: Western Canal flour 42s a 42s 6d, Ohio 44s a 44s 6d, Philadelphia and Baltimore 42s 44 6d.

White wheat 12s a 12s 6d, Red 11s a 11s 3d, closing dull with a downward tendency.

Corn had declined 6d a 1s, with a dull market. Yellow 45s 6d a 46 6d, mixed 44s 45 s, white 50s.

Several other circulars quote flour 6d and wheat 2d under the above rates.

The weather had been quite favorable for agricultural purposes.

DOMESTIC DESPATCHES.

Matters about Kansas.

WASHINGTON, Dec. 17.

Major and Brevet Colonel Montgomery has been sentenced by a Court Martial to be dismissed from the service of the United States, while commanding at Fort Riley, territory of Kansas, in the arrangement for conveying a part of the military reserve through into Browns City, in which Governor Reeder was concerned, and at which place he summoned the Legislature of Kansas to meet.

Congressional News.

SENATE. The Senate met and adjourned.

HOUSE. Mr. Walker made a personal explanation, and defended the Southern Know Nothings. A discussion ensued.

Mr. Walker rising to a personal explanation, defended southern Know Nothings from the attacks of the Missouri Register, saying they had not only been a target for the press of the country, but here also a battledore and shuttlecock by the Republicans of one side, and the Democrats of the other. The Democrats have wilfully obstinate party exclusiveness nominated their candidate, and adopted a resolution which many of the citizens of moderate of them admit was an insult to, and a stigma on the members on this floor. The fact must be realized, but if squatters Know Nothings, in the opening of that contest, had thrown themselves into the ranks of the Democrats, they would have been a free and organized party. He desired that the Democratic party was still a National party, and claimed nationality for the American party.

Mr. Jones said, had it not been for Know Nothingism, Pennsylvania would to day, instead of being represented by six Republicans, Democracy would be represented by seventeen. Know Nothingism and Democracy are synonymous with Free Soilism. The Democracy stand on what they believe to be the principle without compromise.

Mr. Allison in replying endorsed the idea of his colleague, who was a national man, had it not been that the people of Pennsylvania had the action of the last few days, there would be 17 democrats from that State, but the Free Soilers have united and Pinkney received by men a majority in Nebraska bill.

Nothing in the course of his colleague in the adoption of the Democratic principles, as what is by no means uncommon in the pronounce of all men to be with party—according to their sentimentally different.

Remarks on the subject of a Speaker, pledge the admission of new States, &c., &c.

Our slavery. He was willing to go into a long meeting, with a view to the election of Speaker.

Mr. Barksdale of Miss. claimed that Mr. Banks is the only man.

Mr. Campbell, Jones, and Allison of Pa., had a lively triangular debate, at great length, involving the merits of Speaker.

Mr. Orr delivered his views.

Mr. Campbell of Ohio has the floor when the House adjourned.

Railroad Collision.

BUFFALO, Dec 18th.

Two trains of the Great Western, Canada Southern Ontario Railroad came in collision this afternoon. The engines and two cars were smashed, two lives were lost and several persons wounded. Both trains were filled.

Americans in Council.

PHILADELPHIA, Dec 18.

The American State Council adhering to the Philadelphia Platform are holding a session here. It is well attended, and the members are enthusiastic. A resolution was adopted approving of the course of Messrs. Brown, Edmunds, Millward and Ridler of Pennsylvania for refusing to concede in the House of Representatives with those who regard outside issues as more important than Americanism in the contest for Speaker, and for the strong Native ground assumed by them. A Committee proceeds to Washington with the resolutions this night.

Printing Offices Burned.

LOUISVILLE Ky., Dec 18.

The Printing Offices of the Memphis Appeal and the Eagle and Enquirer were entirely destroyed by fire on Saturday, together with all the stock. The office of the Whig was considerably damaged.

In the Georgia Senate on Friday, a resolution was introduced for appropriating $100,000 to aid Southern men to emigrate to Kansas as an offset to Northern emigration.

Supreme Court Decision.

NEW ORLEANS, Dec 13.

In the United States Supreme Court this week a decision was given in the Mrs. Garnier case, reversing the decision of the second Circuit Court, and declaring that Daniel Clark's will of 1813 shall be probated, and Mrs Garnier's appeal upon the immense estate left by him.

From Mexico.

BALTIMORE, Dec 18.

New Orleans dates of Tuesday and Wednesday, are received here.

Advices in Mexico to the 8th, contained in the New Orleans papers, represent the country to be in a terrible state of confusion, robberies, and disorders of all kinds prevailing in every where.

The ministry was dissolved on the 6th.

Comonfort had also abandoned Alvarez, and the latter would return to the South After account, however, denies that any mutiny has occurred.

ARNOLD'S COMBINED

Foot-stove, Lantern and Nurse Lamp.

L. M. P.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

The FOOT STOVE, it answers an excellent purpose, as it can be safely carried in hand in one minute, to any part of the house, and will keep the feet warm and quiet all night. It is an indispensable article in the sick room.

The LANTERN is designed for all the usual purposes, and is less liable to be overset or get broken, and can be used as a horse lamp with equal advantages.

The NURSE LAMP and its uses of sickness. It is of great advantage in keeping drinks, or medicines warm, gently giving the right degree, and for cooking in small quantities. For making tea, &c., &c., it will be found very convenient as a quart of water can be boiled in 15 minutes, and at that rate heat on the same length of time.

In fact, the various purposes to which this great apparatus can be put may be readily conjectured by every one. No family or person is required as no one can afford to be without one. Nothing more respecting its adaptability to a hundred purposes would fail to be known what our readers can all see at once for themselves. For sale wholesale and retail at

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to required size, and beautifully colored in Water or Pastel. Portraits are also finished by this process, requiring no longer sitting than the common daguerreotype, and the numerous inconvenience and failures of sittings. Glass daguerreotypes, of unsurpassed richness and durability, for the first time in Bangor, offered to the public. Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main and Union streets, a short distance below the Bangor House.

California Steamers,

Carrying the United States Mail

8th and 20th of each Month.

Reduced Prices. 150 lbs Baggage Free,

Through Tickets, including transit of the Isthmus, via Panama R R

☞ By order of the Postmasters General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 8th and 20th of each month.

Passengers are landed at the Railroad Depot Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire through tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight* thus avoiding the great exposure by night in open boats to fever and ague and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U S Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus saving 10 days passage by the Mail Line a saving unattended by any detention on the Isthmus.

☞ *The mails are despatched by this line on the 8th and 20th of each month, and passengers are booked only by the Agent of Panama and tickets thus obtained can be obtained by the only authorized Agent for the Atlantic and Pacific Mail Steamship Companies in this city.* J L HARTLETT, Agent

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment and Humor Syrup.

IT is the Great MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of as for more than seven years, and in suffering it to stand this time, we are in possession of evidence of its virtues, more numerous and conclusive than we have ever before had in favor of any article. In numerous cases of Tetter and Salt Rheum, it has effected a perfect cure, after all other remedies had failed. In Scrofula, Erysipelas, White Swellings, Abscesses, Old Sores, Ring Worms, Scald Head, Burns and Scalds, Chilblains, Piles, (a prescription especially for Piles,) Felon, Fever Sores, and all old Mercurial sores, it is equally valuable. It removes all the ears from the Pimples, Blotches and Blisters of Children, leaving the skin perfectly soft and smooth, while a few applications of it will not fail to remove Scurf, Dandruff, Blotches, Pimples, Tetter and Salt Rheum from the face, leaving the skin soft and smooth. It will also remove Moles and Warts from the face, leaving the skin perfectly
